United Healthcare [Peer Comparison Reports](#) to be Mailed in April

In April 2019, select primary care physicians will be mailed a letter directing them to the Document Vault on Link to view their Peer Comparison report. UnitedHealthcare Peer Comparison Reports (formerly Performance Reports) provide physicians with actionable information to help deliver better care, better health outcomes and better costs to patients by:

- Analyzing claims data to identify variations from peer benchmarks and alerting physicians whose paid claims data for UnitedHealthcare member over a given period varies from expected practice patterns
- Leveraging utilization measures or specialty-specific procedural measures
- Working collaboratively to improve value for UnitedHealthcare members by helping ensure that services they receive align with evidence-based standards of care
- Identifying focused areas for improvement with suggested actions to reduce variations

Only providers meeting select criteria will be eligible for a Peer Comparison report. If you believe a report is available to you, the report can be accessed in the following ways:

- Specialty Providers: Reports are delivered by mail as needed
- Primary Care Physicians: Electronic copies of this report can be accessed in [Document Vault](#)
